REPLY TO  
ATTN OF: AT-082

Mr. Frank Briedt  
Bunker Hill Limited Partnership  
834 McKinley Avenue  
Kellogg, Idaho 83837

Dear Mr. Briedt:

Pursuant to our telephone conversation of August 2, 1989, this letter will confirm the EPA Clean Air Act (CAA), National Emission Standards for Hazardous Air Pollutants (NESHAP) asbestos inspection scheduled for September 5, 6, 7, and 8, 1989. We expect to have about four inspectors on the inspection team in order to adequately cover the extensive site.

The inspection will cover the entire physical site as well as a review of any records that relate in any way to removal of equipment or any other facility components that may have contained or been covered with asbestos. Such records could include, but are not limited to, purchase records, salvage contracts, asbestos waste disposal receipts, and log entries documenting contractors in and out of the facility.

If you have further questions regarding this inspection, please call me at (206) 442-0199.

Sincerely,

*Tonya Z. Hardesty*
